### Benefits of electrostatic disinfection sprayer systems:

- Electrostatic sprayers are the new standard in infection control due to their ability to provide an **electrostatic charge allowing solutions to fully wrap around and cling to surfaces for more complete coverage and maximum disinfection**, compared to traditional mops and cloths.
- **Use with EPA-approved disinfectants effective against COVID-19 available from Regional Distributors, Inc.** for the highest level of disinfection.
- **Touchless application** that provides a fast, safe and effective application method that reduces cross contamination and ensures proper dwell times.
- **Quickly and efficiently disinfects and sanitizes both hard and soft/fabric surfaces** including floors, tables, chairs, walls, furniture, drapes, and other hard and soft surfaces.
- **Portable, eco-friendly, lightweight and quiet** - suitable for use in any environment.
- **Safe for use in food service conditions** when used with food safe chemicals.
- [View short product videos](#) on how these systems quickly and easily electrostatic-charge solutions to wrap around and cling to surfaces for complete coverage and maximum disinfection.

# Where It's Used

## SPRAYERS SOLVE PROBLEMS – FROM MICRO TO MACRO.

Victory Innovations sprayers are used across a range of industries, from air travel to schools to restaurants. The best part? Our sprayers support any water-based chemical, so you're not limited to one application. Electrostatic technology helps you solve a variety of problems, from viruses to larger pests.

### DISINFECTION

Clean and disinfect spaces to the fullest extent, giving you peace of mind.

### PEST CONTROL

Ensure every hard-to-reach area is coated and banish pests for good.

### AGRICULTURE

Apply pesticides, fungicides and fertilizers with ease.

### MOLD AND MILDEW CONTROL

Keep spaces safe and prevent regrowth with full-coverage chemical application.

# BruTab<sub>6S</sub>®

**Effervescent Disinfectant  
& Sanitizer Tablet**

# BruTab<sup>6S</sup>

1

## **STRONG**

**One product for use throughout an entire facility**

US EPA Registered Disinfectant: Kills *C. difficile* spores, TB and more in 4 minutes. Kills Norovirus, Hepatitis A Virus, Hepatitis B Virus, Hepatitis C Virus and HIV-1 in 1 minute. Hospital Disinfectant; Meets OSHA Bloodborne Pathogens\* Standard; Sanitizer Claim for Food Service Applications; Kills *Canine Parvovirus*.

*\* Kills HBV and HIV-1 on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids.*

2

## **SURFACE/USER FRIENDLY**

**Less damaging to surfaces and equipment with neutral pH — Use Dilution is OSHA GHS Non-Hazardous for Health, Physical or Environmental Classifications reducing risk/facilitating worker safety**

Similar pH to skin – will not burn the skin. Will not harm floor finishes. Safe on colorfast fabrics.\*

*\* Always test small area of clothing for color fastness before using.*

3

## **STABLE**

**Economical — lasts longer resulting in less waste**

Longer shelf life in solution than bleach – 3 days compared to 1 day for bleach. Longer shelf life in tablet form than bleach – years compared to months for bleach. Continues working in the presence of organic load (i.e. blood and dirt). Sodium dichloro-s-triazinetriene retains killing power due to a 50 / 50 chemical equilibrium that continues to generate hypochlorous acid to replace that which is being used up in the process of destroying micro-organisms or contact with organic loads. This means that it is not inactivated by dirt/cloths/organic matter as easily as chlorine is depleted from bleach.

4

## **SUSTAINABLE**

**Cost-savings in multiple ways: Storage, Shipping, Handling, Waste Minimization**

Small tablet size: Reduces SKUs – less warehouse space required to stock product compared to bleach and other liquid disinfectants. Reduces shipping costs. Non-hazardous shipping. Reduces packaging waste.

5

## **SIMPLE**

**Ease of training and usage**

Exact dosage every time delivers accurate strength solution. Eliminates “measure and pour” guesswork. No dispensing equipment required.

6

## **SMELLS CLEAN**

**Leaves areas smelling clean and disinfected**

Ideal for all areas in the facility including patient rooms, restrooms and shower rooms.
